

15kW Foldable Container Used in the Jerusalem Mountains

Overview

Unlike traditional shipping containers with solar panels mounted on top, the Mesa by SolarSet is a fully integrated, foldable solar power system that fits inside a standard shipping container for easy transport and rapid deployment. Mesa systems provide foldable, containerized solar power for international off-grid locations, remote worksites, and humanitarian operations, arriving pre-assembled for rapid deployment worldwide. Each Mesa system is designed, manufactured, and tested in our Colorado factory before shipping. A 15kW hybrid solar system seamlessly integrates the advantages of both on-grid and off-grid solar systems, connecting to the electricity grid for the sale of excess power and incorporating a battery bank for energy storage during grid outages or high-demand periods. How does a 15 kW solar system. This rigid water container lets you bring non-potable water to the campsite. Removable spout with provides a convenient way to pour water and stores inside the jug when not in use.
