

# 20-foot Energy Storage Container Factory Supplier

## Overview

---

Our 20-foot container storage solution is not only powerful, but also extremely safe. Equipped with a 4-stage safety concept, fire and gas detection system and an explosion protection mechanism, we offer comprehensive protection for your energy storage applications. The 20-ft liquid-cooled ESS container integrates PACK, EMS, BMS, HVAC, and fire suppression system (FSS) into a single container. It integrates battery cabinets, battery management systems (BMS), container dynamic monitoring systems, and can integrate energy storage converters and energy management. KonkaEnergy 5.015MWh Modular Containerized Battery Energy Storage System (BESS) is a high-performance, utility-scale solution designed for grid balancing, frequency regulation, and micro-grid applications. STABL Energy wins the pv magazine Award 2025 in the BESS category. Our innovative approach for the commercial and industrial. The energy storage battery system adopts 1500V non-walk-in container design, and the box integrates energy storage battery clusters, DC convergence cabinets, AC power distribution cabinets, temperature control system, automatic fire-fighting system, lighting system and so on. The total capacity is. The container system is equipped with 2 HVACs the middle area is the cold zone, the two side area near the door are hot zone. 58MWh We will configure total 8 battery rack and 4 transformer 500kW per.
