

# 20 mw battery storage

## Overview

---

On May 16, Chinese company Gotion held the 2025 Global Technology Conference, where it introduced the Grid20MWh BESS 20MWh energy storage system. It is the world's first energy storage system to reach a capacity of 20MWh per unit, and its design supports a lifespan of 25 years. Megablock is a pre-engineered BESS solution combining four Tesla Megapacks, a transformer and switchgear. According to Tesla, Megablock is designed for a. We partnered with Imperial Irrigation District (IID) to help engineer the future of energy storage and deliver one of North America's largest battery energy storage systems.
