

40 solar panels generate electricity in Nicaragua

Overview

The El Jaguar photovoltaic plant, a 16 MW solar facility located in Malpaisillo, Nicaragua, has begun supplying electricity to the national grid. It features nearly 40 bifacial solar panels along with a Battery Energy Storage System (BESS), making it the country's first of its kind. Source: PV. Nicaragua has secured an \$83 million loan from the Central American Bank for Economic Integration (CABEI) to finance the construction of the 100 MW La Trinidad Solar Plant. The Solar Energy Industries Association® (SEIA) is leading the transformation to a clean energy economy. Recommendation: Use high-efficiency panels and ventilated.
