

500w monocrystalline silicon solar panel information

Overview

High efficiency solar cell to keep the modules efficiency reach to 21. Positive tolerance to ensure higher output. Standard Test Conditions(STC):irradiance 1,000 W/m²;AM 1,5;module temperature 25 °C. Measuring uncertainty of power is within $\pm 3\%$. Anodized aluminum frame withstand corrosion and damage, Special osculum can reduce destruction by water freeze. IP68 junction box long-term weather endurance. Excellent performance. Specifically engineered for the diverse climates of North America, the SIL-500 HM showcases a sleek, design that perfectly marries form and function. Durable and Reliable: Backed by a 30-year warranty, this panel is built to last, with robust dimensions of 2278x1134x35mm and a. The 500W monocrystalline solar panel is designed for maximum power output, making it suitable for large-scale residential, commercial, and industrial solar projects.

500w monocrystalline silicon solar panel information

SUNGOLDPOWER 6PCS 500 Watt Monocrystalline Solar Panel UL ...

?Wide Use and Warranty?500w mono solar panels work excellent with MPPT to charge 12V/24V/36V/48V batteries by series or parallel.You can get 10 years workmanship warranty and 25 ...
