

60kW Energy Storage Container for Railway Stations

Overview

Our containerized energy storage system combines modular battery storage with integrated power conversion. This mobile, all-in-one solution supports depots, testing facilities, and industrial sites requiring flexible, transportable, and reliable power supply. integrated with Battery, Inverter, MPPT, EMS 2. Apply to hybrid grid/off grid system 4. Optional cooling of air cooling and liquid cooling 5. Widely applicable for industrial and commercial energy storage 6. System can be expanded. The Battery Energy Storage System (BESS) Liquid & Air Cooling Solution is designed to provide highly efficient thermal management for battery storage applications.

60kW Energy Storage Container for Railway Stations

Containerized Energy Storage System , Mobile Power Unit

Explore our modular containerized energy storage system with integrated power conversion. A flexible, mobile solution for rail depots, testing, and industrial backup.
