

680W photovoltaic panel specifications and models

Overview

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices. Ø 25 mm at 23 m/s 2400 Pa or 244 kg/m² 5400 Pa or 550 kg/m² Operating temperature (°C) Temp. coefficient of P_{max} (%/°C) Temp. No regrets—low maintenance, high efficiency These panels power our irrigation system efficiently. We expanded our business with these panels. The new series integrates 210mm silicon wafers, with PERC, multi-busbar cell technology and high-density encapsulation, increasing the module efficiency up to 25. The power output of the module has officially. Excellent anti-L_eTID & anti-PID performance. *According to the applicable Canadian Solar Limited Warranty Statement. * The specific certificates applicable to different module types and. In order to create the ultimate cost-effective product, SunEvo Solar launched a new generation of ultra-high efficiency HJT solar modules, the Evo 6 Pro monocrystalline N-type HJT bifacial double glass 680-700Watt photovoltaic solar panel.
