

# After-sales service for low-voltage photovoltaic cabinets used in weather stations

## Overview

---

We employ manufacturer-, industry-, and state-certified technicians to provide top-of-the-line service and support to our end-users. Contact us for more information and a customized quote. Enko offers Day-to-Day Service, Preventive, Central Station Monitoring, NFPA Testing and Inspection. LINKWELL ELECTRIC is a global cabinet component manufacturer for low-voltage electrical components and automation solutions, serving switchgear panel builders and industries worldwide. With decades of expertise, we design and manufacture high-quality panel accessories—including ventilation systems. Our PV Weather Stations are the interface between weather sensors and the plant monitoring and deliver data to maximise the energy output. The portfolio offers certified and ready-to-use cabinets for PV power plants that meet the specific environmental, electrical and data transmission requirements. Beijing HCRT Electrical Equipment Co. We specialize in the production of switching stations, main ring units, high/low-voltage switchgear cabinets, three phase load control devices, pole mounted circuit breakers, cabinet type transformer. It can be used in solar photovoltaic power generation systems, and can also be used to convert, distribute and control electrical energy between photovoltaic inverters and transformers or loads. Wide current coverage, up to 4000A, breaking capacity up to 80KA. For low-voltage solar power stations that are connected to the grid, the PV grid connected cabinet can also incorporate additional.

## After-sales service for low-voltage photovoltaic cabinets used in we

---

### Full-service low voltage contractor

We employ manufacturer-, industry-, and state-certified technicians to provide top-of-the-line service and support to our end-users. Contact us for more information and a customized quote. Enko offers Day ...
