

Airport Solar-Powered Mobile Container

48V
Lithium
Battery

Overview

As part of a twelve-month project, a container with photovoltaic panels and wind turbines from the Swiss company FlowGen is currently being tested at Munich Airport. The mobile energy container supplies electric vehicles with charging power. In cooperation with Munich. On a windy and sunny day, it can generate around 200 kWh of energy for four to six electric cars. It can also be. What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Fast deployment in all climates.

Airport Solar-Powered Mobile Container

High-efficiency solar-powered container for airport use

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...
