

Animation of photovoltaic fixed bracket installation

Overview

This short and efficient video showcases the entire process, from individual components step-by-step to the completed installation. It serves as an excellent reference for anyone looking to understand the procedure. This includes iron sheet/ground roof solar panel bracket installation, tile/slate roof solar panel bracket installation. Why should you install a solar panel bracket?

The purpose of installing the bracket is to better fix the solar panel. The fixed bracket is the most basic form of photovoltaic module bracket. Let's face it - installing solar panels isn't exactly a walk in the park.
