Air Cooled/Liquid Cooled

Overview

Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. Demand for solar-powered home systems has increased rapidly in the last several years. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are some government-funded solar. Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. These bad actors prey on homeowners' lack of knowledge about solar technology.sumer complaints about a small number of unscrupulous solar companies. gov/state-consume purchase agreement, or subscribing to a community solar.
