

# Are you afraid of water if the solar panels are cracked

## Overview

---

Even if just one cell is cracked, it can significantly reduce the output of the entire panel. If you have a crack in your solar panel, it is important to get it fixed as soon as possible. Physical Damage from Falling Objects One of the most common reasons for damage is physical impact. Even a golf ball or rock can damage a solar panel's tempered. While solar panels don't crack often, understanding what can compromise their integrity could help you learn about the different ways to prevent potential solar panel damage. Poor Installation Practices 3 3.
