

Australian solar energy storage cabinet off-grid supplier

Overview

Our team have decades of expertise in providing off grid solar systems and off grid battery storage Australia-wide. Our solar and battery storage systems are custom designed and installed for your situation and location, no matter where you live in. Australian-made, on-grid and off-grid energy storage solutions that store solar power and can make you income through your very own Private Power Plant. Assembled and tested in Brisbane, Australia. Did you know that your rooftop can generate up to three times more solar. Saltwater Solar provides complete off-grid power system cabinets containing batteries and all enabling equipment for continuous electricity supply to remote area homes, businesses and remote communities. Features Meets all Australian Standards for Remote Area Solar Systems, including the stringent. If you're heading off-grid, you need more than just solar panels—you need a complete energy system you can count on from day one. That's where our custom-built off-grid solar cabinets come in. Rather than loading up parts and hoping it all comes together onsite, we've refined the process. We also deliver special projects. All Rights Reserved.
