

Austria household energy storage power supply market

Overview

The residential energy storage market in Austria is gaining traction as homeowners seek to enhance their energy independence and reduce electricity costs. Austria has emerged as a significant player in the European home energy storage market. To ensure a safe and stable supply, all electricity grids require this equilibrium. Since electricity generated from renewable sources fluctuates widely and independently of consumption, storage facilities are important to stabilise the grid or reduce peak loads. Such. The Junelight Smart Battery is now available in Germany and will be launched in Austria in April 2019.
