

# Azerbaijan's battery energy storage solution

## Overview

---

Azerbaijan has ushered in a new era in its energy sector with the launch of large-scale Battery Energy Storage Systems (BESS) to accelerate the integration of renewable energy sources. Azerenergy is creating Battery Storage Systems with a total capacity of 250 megawatts and 500 megawatt-hours at the 500-kilovolt Absheron substation near the capital. “AzerEnerji” is establishing battery storage systems (BESS) with a total capacity of 250 megawatts and an energy storage capacity of 500 megawatt-hours on the territory of the 500-kilovolt “Absheron” substation near the capital and the 220-kilovolt “Aghdash” substation located in the central part. “AzerEnerji” is establishing battery storage systems (BESS) with a total capacity of 250 megawatts and an energy storage capacity of 500 megawatt-hours on the territory of the 500-kilovolt “Absheron” substation near the capital and the 220-kilovolt “Aghdash” substation located in the central part.
