

Barbados sells energy storage power

Energy storage(KWH)

102.4kWh

Nominal voltage(Vdc)

512V

Outdoor All-in-one ESS cabinet

Overview

Barbados has taken a major step in its energy transition with the launch of a tender to award 60 MW of capacity and 240 MWh of storage through battery energy storage systems (BESS). It marks the first time Barbados has used price-based competition in its power sector, creating a potential blueprint for other Caribbean markets. The launch event, hosted by the Ministry. Barbados has taken a significant step toward transforming its energy landscape with the launch of the Caribbean's first competitive Battery Energy Storage System (BESS) auction — a development that could redefine how renewable energy is integrated, financed, and scaled across island grids. Barbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has stalled the growth of the renewable energy sector. The Ministry of Energy and Business is currently hosting a three-day Procurement Design Workshop with key stakeholders to discuss and.
