

Battery storage container for Russian telecommunications

Overview

In 2021, MKC Group of Companies signed an agreement on the exclusive distribution of products in Russia and MENA (the Middle East and North Africa region) for the preparation of energy storage implementation projects with an engineering company which team for more than 5 years has been. In 2021, MKC Group of Companies signed an agreement on the exclusive distribution of products in Russia and MENA (the Middle East and North Africa region) for the preparation of energy storage implementation projects with an engineering company which team for more than 5 years has been. MKC Group of Companies is an official partner in energy storage devices built on CATL battery systems — a world leader in the production of lithium energy sources for electric transport and energy. Our telecom backup systems provide robust, high-performance energy storage solutions. Qstor™ Battery Energy Storage Systems (BESS) from Siemens Energy are engineered to meet these challenges head-on, offering a versatile, scalable, and reliable solution to energize society. They ensure that the landline, internet and mobile communications function nationwide.

Battery storage container for Russian telecommunications

Telecom Battery Backup System , Sunwoda Energy

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a reliable and stable power supply.
