

# British solar Energy Storage solar container lithium battery Box

## Overview

---

The Containerized Battery Energy Storage Solution (BESS) is an advanced Lithium Iron storage unit built into a customised 20ft or 40ft container. The unit is designed to be fully scalable to meet your storage requirements. Storage size for a containerised solution can range from 500 kWh up to 6. Withstanding a wide temperature operating range, offering ultimate flexibility, providing a reliable backup power supply for commercial and industrial. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over the UK and further afield (we have a footprint in 90+ countries). It is designed for commercial, industrial, and utility-scale applications, providing reliable power supply, peak shaving, and renewable. Preassembled in 20 and 40 ft containers, ensuring effortless transportation and deployment.
