

# Can I bring energy storage power to Cote d Ivoire

## Overview

---

As Cote d'Ivoire accelerates its renewable energy transition, energy storage system factories are becoming critical infrastructure. This guide explores the current landscape, emerging trends, and how businesses can leverage this growth sector. Discover why global investors are eyeing West Africa's. West Africa's energy storage market is projected to grow at 14. Current projects benefiting from similar incentives show impressive results: While the subsidy lowers initial costs. Paris, May 11th 2022 - Saft, a subsidiary of TotalEnergies, has won a major contract from Eiffage Energie Systèmes to deliver a 10 MW energy storage system (ESS) that will ensure smooth grid integration for the Boundiali solar photovoltaic (PV) power plant. Songon, a greenfield power project, will consist of approximately 375 MW of combined cycle power generation with an integrated lithium-ion energy storage system (ESS). Its solution will comprise six Saft Intensium Max High Energy containers. Deloitte, in its Africa Energy Outlook 2023, describes Côte d'Ivoire as one of the largest economies in Sub-Saharan Africa, saying it has made, “. great strides in improving its business environment to attract investment, promote economic growth and diversify away from cocoa in its export. A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37. 5MWp solar PV power plant in Côte d'Ivoire (Ivory Coast). The Boundiali solar PV plant is built at a cost of €40 million, and the financing agreements were signed in 2019.

## Can I bring energy storage power to Cote d'Ivoire

### Energy Storage in Cote d'Ivoire Current Capacity Projects and Future

As technology costs keep falling and policies improve, experts predict Cote d'Ivoire could host 15-20 storage facilities by 2030. The race is on to capture this \$120M market opportunity!
