

# Can Weidian enter the State Grid

## Overview

---

Earlier this week, the Beijing-based Global Energy Interconnection Development and Cooperation Organization (GEIDCO) stepped in to fill that gap, outlining an ambitious upgrade for North America's grids. State Grid International Development Co. (SGID), set up in June 2008 in Beijing as a wholly-owned subsidiary of State Grid Corporation of China (State Grid), is responsible for State Grid's overseas investment and operations of energy assets. It is the largest utility company in the world. As of March 2024, State Grid is the world's third largest company overall by revenue, behind Walmart and Amazon, and. □ Feng Xiufeng is a Ph. Candidate in International Law, School of Law, University of International Business and Economics; Visiting Student Researcher, School of law, University of California, Berkeley. It maintains the longest global safety record for ultra-large power. Transmission lines in the United States and Canada require approval from every state and province traversed, and that political fragmentation hinders deployment of long power links of the type connecting vast swaths of territory in regions such as China, India, and Brazil.
