

# Can the installed solar panels be sold to power stations

## Overview

---

Although many people with solar systems on their homes or businesses think that they can sell excess electricity to the power grid, the reality is that you can only sell power to the grid if you have an electricity generator's license and qualified power-generating assets. When Sarah installed solar panels on her Phoenix home in 2024, she was surprised to receive a \$47 credit on her first electricity bill. You can save money by reducing your energy costs and lowering carbon emissions. The Modernize Mission We help homeowners make confident decisions through our reliable, up-to-date, and unbiased information and average project costs. All of our content is thoroughly reviewed and fact-checked by our team of home improvement experts.
