

China s base station power supply market

Overview

The Asia-Pacific region, specifically China, is projected to dominate the power supply market for base stations. The high rate of 5G network deployment and the large number of telecom operators and infrastructure providers in the region contribute significantly to this. The global market for Power Supplies for Base Stations is experiencing robust growth, projected to reach \$10.2 billion in 2025 and maintain a Compound Annual Growth Rate (CAGR) of 7. This expansion is primarily driven by the accelerating deployment of 5G networks globally. The European Union's revised Energy Efficiency Directive (EED) now requires telecom operators to reduce base station energy use by 30% by 2025 compared to 2020 levels. The potential shifts in the 2025 U.
