

Communication green base station built on outdoor batteries

Overview

The Outdoor Base Station Cabinet is a robust and weatherproof telecom cabinet engineered to house communication, power, and battery equipment in outdoor environments. 5G communication has the characteristics of poor high-frequency transmission characteristics, large network capacity requirements, and large network coverage area requirements. Tian-Power. Whether you need a grid-tied, off-grid, or hybrid system, with or without battery storage, and even distributed setups, we offer fully customizable renewable energy solutions tailored to your specific needs. Designed for long-term reliability, it provides a controlled and secure enclosure that ensures stable operation for base stations. Telecom base stations often operate in remote or unmanned locations and provide critical services such as mobile connectivity, internet access, and emergency communications.

Communication green base station built on outdoor batteries

DETAILS AND PACKAGING

- 1 USER MANUAL PDF
- 2 RJ45 Cable For RS485/CAN
- 3 Battery in Parallel Cables
- 4 RJ45 TO USB Monitor Cable
- 5 M8 Terminal*4

Revolutionising Connectivity with Reliable Base Station Energy Storage

Discover how base station energy storage empowers reliable telecom connectivity, reduces OPEX, and supports hybrid energy.
