

# Container power generation size

## Overview

---

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint — we can easily equip your gen set with greater levels of sound. This type of power management system

**PREDICTABLE POWER** The Atlas Copco QEC generators packs a punch, up to 1 megawatt of containerized power that can be easily transported from one worksite to the next. 5MW for Diesel, LPG, CHP, and NG Gas applications. Developed in-house based on our legacy of technological innovations. Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Customized sizes to accommodate special project requirements are available on request.

## Container power generation size

### Shipping Containers for Power Generation & Energy Storage

Interport's shipping containers can be fully customized with a wide variety of modification options, depending on your power generation source and battery storage needs.

-  **All In One**  
Integrating battery packs
-  **Intelligent Integration**  
integrated photovoltaic storage cabinet
-  **High-capacity**  
50-500kWh
-  **Rated AC Power**  
50-100kW
-  **Degree of Protection**  
IP54
-  **Altitude**  
3000m(>3000m derating)
-  **Operating Temperature Range**  
-20~60°C(Derating above 50 °C)

### Containerized Generator Set Solutions

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient ...
