

Containerized power generation customization

Overview

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. That's why we intentionally made these units easily configurable to the needs of any application, from rental to disaster relief to mining — with a whole host of value-added standard features, options and customization. Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units. In a nutshell, containerized plants bring more efficiency, customization, and less investment risk for your company. Our plants support different electrical outputs, gas applications, noise levels, exhaust levels, and. Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions.

Containerized power generation customization

Mobile Power Generation Solutions , Craftsmen Industries

Craftsmen Industries offers custom-built systems that can be constructed inside ISO shipping containers that act as the building for equipment at the final destination. Craftsmen specializes in both small and ...
