

# Delivery date of 50kW energy storage container in Hungary

## Overview

---

Developments began in October 2022 and the project is expected to be completed by March 2026, further strengthening Hungary's smart grid capabilities and supporting the energy transition. The government of Hungary has introduced a HUF-100-billion (USD 305m/EUR 260m) programme to support residential energy storage installations to ensure that families with solar panels can remain self-sufficient in the long term. Author: Centre for Alternative Technology. The installed solar capacity has thus reached the maximum system. Why is EU funding 800MW of energy storage in Hungary?

The EU has approved a \$1.
