

# Does the outdoor fly killer lamp generate electricity from solar energy

Sample Order  
UL/KC/CB/UN38.3/UL

## Overview

---

The Solar panel absorbs solar energy and transmits it to the battery, the battery provides energy for the mosquito killer lamp to work. Solar-powered insect killers leverage the energy of the sun to attract, trap, and eliminate flying pests. With its gorgeous modern industrial design and its 600 volts zapping grid, this powerful bug zapper discreetly kills bugs on contact. The PIC Solar Insect Killer Torch is designed with effective insect control with wide coverage: OnBeam upgraded solar bug zapper outdoor features 2 high-efficiency LED bulbs light (365-395 nm wavelength) that attract and zap flying insects like mosquitoes, gnats, moths, flies, wasp and more. Please note the Fly-Off Solar Energy.
