

# Dustproof type of energy storage battery cabinet for network server rooms

## Overview

---

IP55-rated dustproof and waterproof battery enclosure designed for UPS and energy storage, ensuring secure protection in harsh environments. Purpose-built for critical backup and AI compute loads, they provide 10–15 years of reliable performance in a smaller footprint than VRLA batteries. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. Constructed from durable steel or stainless steel, the cabinet meets the IP55 protection standard, providing strong. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. A BESS cabinet (Battery Energy Storage System cabinet) is no longer just a “battery box.” In modern commercial and industrial (C&I) projects, it is a full energy asset—designed to reduce electricity costs, protect critical loads, increase PV self-consumption, support microgrids, and even earn.
