The "Ecological Conversion 2035" program, launched in 2022 and aimed at reducing CO2 emissions to zero, has accomplished another important goal: Starting June 16, charging stations for electric vehicles owned by the State and private ones belonging to employees of the Governorate. The "Ecological Conversion 2035" program, launched in 2022 and aimed at reducing CO2 emissions to zero, has accomplished another important goal: Starting June 16, charging stations for electric vehicles owned by the State and private ones belonging to employees of the Governorate. The "Ecological Conversion 2035" program, launched in 2022 and aimed at reducing CO2 emissions to zero, has accomplished another important goal: Starting June 16, charging stations for electric vehicles owned by the State and private ones belonging to employees of the Governorate and the Holy See. Fourteen electric vehicles - four passenger Melex intended for the Gendarmerie and ten utility Goupil for the needs of Vatican City State - have been provided by Exelentia (Italian Mobility Factory), enabling the Governorate to continue the implementation of its sustainable mobility development. The Governorate of Vatican City State announces the launch of a series of energy-saving initiatives and strategies to safeguard the environment in the framework of the Pope's Laudato si' and Laudate Deum, including introducing a state car fleet to reduce CO2 emissions through a partnership with the. It announced today that it will supply the Vatican City State with 40 vehicles from its stable of ID. The move is part of the Vatican City State's "Ecological Conversion 2030" project, which aims to reduce the carbon footprint of its vehicle fleet. At the beginning of 2024, the company will deliver just under 40 fully electric models from its ID. The vehicles are part of the decarbonization. Exelentia is also donating two custom-designed electric vehicles tailored specifically for the needs of Pope Francis. (ZENIT News / Vatican City, 04.
