

Energy Storage Container Low-Pressure Type Product Review for Field Research

Overview

This report is available at no cost from the National Renewable Energy Laboratory (NREL) at www.nrel.gov. NREL prints on paper that contains recycled content. This technology strategy assessment on compressed air energy storage (CAES), released as part of the Long-Duration Storage Shot, contains the findings from the Storage Innovations (SI) 2030 strategic initiative., Martin Springer, Hope Wikoff, Karlynn Cory, David Garfield, Mark Ruth, and Samantha Bench Reese. Golden, CO: National. Long Duration Energy Storage (LDES) enables extended storage of power and helps stabilize intermittent power supply when integrated with renewable energy. Finally, the limitations and future perspectives of CAES are discussed. By far, IET-CAS has completed a 15 kW experimental system and a 1.5 MW.
