

# Energy Storage Project Reduction Measures Plan

## Overview

---

This issue brief, released by Clean Energy Group and the Clean Energy States Alliance (CESA), outlines best practices and lessons learned for state policymakers and regulators engaged in developing energy storage peak demand reduction programs. The global energy storage market is projected to grow at a 15. Among other beneficial services, energy storage technologies can help to lower ratepayer costs and reduce pollution by deploying stored clean energy during the peak. This document was produced by the U. This action plan reflects the determination to not only drive economic growth but to and"s second Emissions Reduction Plan (ERP2). Department of Energy's Office of Electricity, through the Energy Storage Program under the direction of Dr. These factors include to.
