

Energy storage high voltage control box isolation switch

Overview

Rincon Power's High Voltage Battery Disconnects (HVBD) are manual safety disconnect (MSD) switches designed for isolating high voltage battery packs during maintenance or storage in applications like industrial equipment, energy storage systems, and electric vehicles. The high-voltage control box has the functions of. XD Electric is one of China's largest primary equipment manufacturers dedicated to the research, application and development of high and ultra-high voltage power equipment. XD Electric is a premier high voltage breaker manufacturer in China with world-class design capability. The XD|GE alliance. le series (at most 15 battery units) works with HVCB-02A. The system control devices, fuses and relay safety of the battery.
