

# Environmental sustainability ouagadougou

## Overview

---

In the capital city of Ouagadougou, these challenges have led to the degradation of natural ecosystems and a reduction in biodiversity. Over. With rapid urban growth posing major environmental and social challenges, nature-based solutions (NbS) are at the heart of urban strategies for sustainability and resilience. They help to maintain biodiversity and respond to contemporary climatic and societal challenges. Spearheaded by a group of volunteer women, this initiative addresses household waste, a major contributor to environmental degradation.
