

Estonia solar Power Storage Project

Overview

The Raba Solar Park in Estonia is set to receive a 21 MW / 42 MWh battery energy storage system, making it one of the largest co-located solar and storage installations in the Baltics. This ambitious initiative, a collaboration between Baltic Green Energy and energy company Stora Enso. EU Climate Goals: Estonia aims to generate 100% of its electricity from renewables by 2030. Grid Stability: Storage systems reduce reliance on fossil fuels for balancing supply and demand. Technology Choices: Estonia Strengthens Energy Resilience: Hertz 1, One of Continental. KIISA, ESTONIA - Febru- The Baltic Storage Platform (BSP) - a joint venture between Baltics leading renewable energy developer Evecon, French independent solar power producer Corsica Sole, and sustainable investment. Trinasolar will deliver modules, mounting systems and battery storage for the site, part of a broader European shift toward co-located renewables.
