

Financing for burkina faso solar energy storage cabinet off-grid project

Overview

Ouagadougou has invited international bidders to submit prequalification documents for two greenfield, solar storage projects, backed by funding from the World Bank Group and the Clean Technology Fund. The project is earmarked to deliver 150MWp of solar PV power integrated with a 50MW battery energy storage system (BESS) The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar. The Ministry of Energy, Mines and Quarries (MEMC) launched Burkina Faso's AMP National Project on 16 February 2023. The program will focus on enabling innovation and technology transfers in decentralized renewable energy distribution and storage solutions. The aim is to increase access to clean. The AMP is a new technical assistance program for solar minigrids, active in 21 African countries, and implemented at the regional level by UNDP in partnership with RMI and the African Development Bank.
