

Fixed Financing for Energy Storage Battery Cabinets at Construction Sites

Overview

These EPA-backed facilities provide construction loans, credit enhancements, and term debt specifically structured for storage projects that reduce greenhouse gas emissions and enhance grid resilience in disadvantaged communities. As utilities, developers, and communities deploy storage facilities ranging from residential backup systems to utility-scale. This Practice Note discusses changes to financing structures for battery storage projects after the enactment of the Inflation Reduction Act. In this article, we will unpack some of the. Co-authored by Harry Brunt, a partner in our Energy and Infrastructure team, and Dan Roberts of Frontier Economics Introduction In this article we consider the role and application of battery energy storage systems (BESSs) in supporting renewable energy power generation and transmission systems and. Utility-Scale Storage Proliferation: Utility-scale BESS installations (4-hour systems, 100+ MW capacity) expanded rapidly through 2024-2025, with capacity additions concentrated in California, Texas, and ERCOT markets. Four-hour lithium-ion storage systems provide optimal round-trip efficiency.
