

Flexible photovoltaic support wire rope manufacturer

LIQUID/AIR COOLING

ON GRID/HYBRID

PROTECTION IP54/IP55

BATTERY /6000 CYCLES

Overview

SunNet Ground is installed with simple tools in only 3 steps: 1) install anchorages 2) unfold and tension structure 3) hook panels to wire ropes. Easily adaptable to the contour of the land. Significantly reduce material, transport and logistics costs, as well as embodied CO2 using our lightweight yet high performance solutions for solar ground mount frames. Reduce your ground mount frame costs, materials and CO2 emissions. Our Gripple engineers have developed a range of lightweight. The flexible photovoltaic support originates from the roof of suspension structure and glass curtain wall. Through customized design and algorithm model calculation, the photovoltaic module array is constructed into a safe and stable space, which can effectively resist wind. Sunsoar (Xiamen) New Energy Co. International Aluminum (Xiamen) Co.

Flexible photovoltaic support wire rope manufacturer

Solar Energy System Flexible Mounting System for Panel Support

A: We are a leader manufacturer of solar PV mounting systems and related accessories since 1992, with rich practical experience and mature production technology, and has several production lines, and ...
