

Foldable container single-phase power distribution station

All In One
Integrating battery packs

Intelligent Integration
integrated photovoltaic storage cabinet

High-capacity
50-500kWh

Rated AC Power
50-100kW

Degree of Protection
IP54

Altitude
3000m(>3000m derating)

Operating Temperature Range
-20~60°C(Derating above 50 °C)

Overview

Porta-Safe® temporary power centers are portable electrical distribution centers that step-down plant site power from 600/480 VAC to usable 240/208/120 VAC providing power for welding, power tools and lighting with GFI protected 120/240V receptacles for all of your outage and. Porta-Safe® temporary power centers are portable electrical distribution centers that step-down plant site power from 600/480 VAC to usable 240/208/120 VAC providing power for welding, power tools and lighting with GFI protected 120/240V receptacles for all of your outage and. Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and. This CEP MicroStation™ is a compact 100-Amp, single-phase portable power distribution center designed to provide more outlets on indoor jobsites. With 12 GFCI, 20-Amp duplex receptacles, you have the ability to plug in multiple blowers, dehumidifiers, heaters, vacuums, scrapers, lights, and tools. Power centers and portable power stations act as a combination transformer and distribution panel to regulate and distribute power from a generator, temporary power pole, or other 480V AC power source. Designed for durability in tough environments, these transportable distribution units make it easy to control and.
