Overview

Solar power is a growing source in the Portuguese energy mix. 5% of total electric power generation as of 2024 with 5. [1] Portugal has set a goal of between 8. 9 GW in. At the Pracana site in central Portugal, the energy company EDP linked solar power and hydropower into one onshore system. A large solar plant with around 90,000 panels was built next to an existing hydroelectric dam. This is expected to contribute 33.
