

Georgia Container Nickel Cadmium Batteries

Overview

is the Savannah, Georgia trusted hazardous waste management partner for the recycling and disposal of Savannah universal waste and regulated batteries containing lithium, cadmium, nickel, silver, mercury, and other toxic materials. Waste Management has begun a new program called Think Green From Home. This program allows consumers to ship old disposable batteries to WM for recycling for a small fee. Rechargeable batteries that can be readily recycled include nickel. There are two main types of batteries, single-use and rechargeable. Capacity: 13 lb Lithium Ion only. Our locator tool helps you quickly find convenient, trusted drop-off locations near you. Just enter your ZIP code to get started.
