

Ghana local new outdoor solar power hub

Overview

In a powerful stride toward sustainability, the country has launched Africa's largest floating solar power farm on the Black Volta River and activated a 50 megawatt (MW) solar power plant in Yendi, located in the Northern Region. At completion, the solar project, which will be the largest solar plant in Africa and the second in the world, would pave the way. Ghana has taken a significant step towards renewable energy with the commissioning of a 50 MW solar plant in the Yendi Municipality of the Northern Region. The country aims to raise its share of renewable energy from the current 1% to 10% by 2030. The pioneering 5-megawatt floating solar installation is. Ghana's new clean energy program, backed by Switzerland's Klik Foundation, will install 4,000 rooftop systems totaling 137 MW to expand renewable capacity and cut emissions.
