

GoodWe PV grid-connected inverter

Overview

Being light-weight, highly-efficient and low-cost, GoodWe residential grid-tied solar inverters are designed to be simple to install, operate, and maintain, so as to ensure a quick return on investment (ROI). A perfect fit for three-phase residential and small commercial systems with high-power PV modules, the SDT G2 PLUS+ inverters allow for high current input up to 16A. The smaller inverters are designed for silent operation, the optional Type II surge protection on both AC and DC sides enhances. The Goodwe GW5000A-MS is a single-phase, grid-tied PV inverter that delivers 5,000 watts of continuous AC output power at 240 household volts. Capable of receiving 7,500 watts of DC solar input, the 5kW A-MS Series is designed for 150% DC input. These robust systems provide scalable solutions to optimize energy use, enhance power quality, and ensure energy security.

GoodWe PV grid-connected inverter

ET LV Series

The GoodWe ET LV Series inverter (5-20kW) is ideal for residential PV systems, offering seamless integration with low-voltage (48V) batteries.
