

GoodWe photovoltaic hybrid energy storage system

Overview

The GoodWe ESA Series is a fully integrated all-in-one solar and storage solution that combines inverter and battery in a pre-wired, modular design—making installation significantly faster and easier. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge. The Chinese company says that its new ESA series is available with a hybrid inverter ranging from 3 kW to 10 kW and storage capacities of 5 kWh to 48 kWh. With the hybrid inverter series such as ET Plus+, BT, ES G2, N-ET Plus+ or EM, GoodWe offers sophisticated solutions for anyone who wants to combine self-consumption, emergency power supply and storage integration in one system. These products cater to a wide range of.
