

Greek new energy storage equipment company

Overview

Greece's grid-scale battery rollout accelerates with new 49 MW / 98 MWh unit in Chalkidiki. Greek renewable energy company Principia has completed the construction of its first battery energy storage system (BESS), known as Themelio. Located in the Vouno area of Chalkidiki, near Polygyros, the 49. TERNA ENERGY was founded in 1997 and as a member of GEK TERNA Group has been a key player in the renewable energy sector carrying out innovative projects for the environment, which contribute to sustainable development. With a strong portfolio of projects in Greece and abroad, TERNA ENERGY is the. The Group has Production Licenses for equal number of Central Storage Stations, with a capacity of 225 MW and 150 MW each, in suitable areas within the Industrial Area of Alexandroupolis and Patras. The government is now working a new plan, which will allow the colocation of batteries with existing solar plants as well as standalone, in front of the meter battery energy storage. Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. In fact, the Regulatory Authority for Energy (RAE) has been receiving applications for permits.
