

# Grenada Residential solar System

## Overview

---

There are a number of solar energy projects underway in Grenada. 5 MW and is expected to generate enough electricity to power over 1,000 homes. We aim to empower Grenadians to move from energy derived from burning of destructive fossil fuels to renewable energy from sunlight. Hybrid Systems available with or without batteries. Join the energy independence movement by making your home fully self-sustainable with a solar power installation, and free yourself from rising energy costs with the help of hybrid inverters! Why Choose Lightwork Power?

What sets Lightwork Power Ltd. 's solar power installation apart from others in. The government of Grenada is looking for firms to supply and install solar systems for residential and agro-processing customers under its flagship Solar for All program. The deadline for expressions of interest is January 30. Through a thoughtful, prudent approach, our goal is to stabilise electricity prices in the short-term, and potentially lower prices in the future. System goes live, you start saving. We stick around to make sure everything running smooth.
