

# Grenada can use solar air conditioning

## Overview

---

Cool Contributions fighting Climate Change (C4), a global climate initiative, is still accepting proposals from private entities to demonstrate solar-powered green (propane/R290) air conditioning in the Caribbean island of Grenada. The deadline to apply is J. C4 aims to demonstrate solar-powered Green Air. From solar to wind, we offer eco-friendly alternatives tailored to your energy needs, reducing your carbon footprint. We specialize in designing, installing, and maintaining systems for reliable cooling, energy savings, and a cozy indoor atmosphere. Choose our eco-friendly R290 and R32 options for. Between the 13th and the 24th of February 2023, numerous stakeholder consultations were held on the island of spice, namely Grenada as part of the second phase of the Cool Contributions fighting Climate Change (C4 II) project. Through a thoughtful, prudent approach, our goal is to stabilise electricity prices in the short-term, and potentially lower prices in the future. In the process of communicating with customers, we know that customers will use air conditioners, water heaters, water purification filters, refrigerators, etc.
