

High-Temperature Resistant Nordic Folding Container for Highways

Overview

Extreme-temperature process totes and lids withstand large fluctuations and differentials in temperature. They store and cover hot items during transport from a production line. They do not. Nordic Cold Chain Solutions offers a wide variety of insulated shipping containers that can meet just about any need. We not only provide sustainable shippers, but we also provide EPS coolers, mailers, and box liners. You may see only an insulated container or a pallet-size protection system, yet look beyond the box and you'll find. FEURER insulated containers offer the ideal solution for the transportation and storage of temperature-sensitive products. We offer innovative, environmentally-friendly.
