

High-Temperature Solution for Outdoor Energy Storage Cabinets

Overview

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are pre-assembled for quick deployment and can operate reliably under wide. The commercial and industrial energy storage solution we offer utilizes cutting-edge integrated energy storage technology. Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital. Highly Integrated System: Includes power module, battery, refrigeration, fire protection, dynamic environment monitoring, and energy management in a single unit. Besides, as a battery storage cabinet with a maximum energy efficiency of up to 91%, the product ensures a reliable power supply for different C&I energy. NextG Power introduces its Outdoor Energy Storage Cabinet —a compact, high-performance system delivering 105KW power and 215KWh capacity.

High-Temperature Solution for Outdoor Energy Storage Cabinets

Our Lifepo4 batteries can beconnected in parallels and in series for larger capacity and voltage.

outdoor power cabinet cooling and energy saving solution

With the rapid construction of smart grids across the country, Envicool provides solutions for 24/7 continuous temperature and humidity control under extreme hot and cold weather to ensure reliability ...
