

# Home energy storage is large

## Overview

---

This comprehensive guide helps homeowners navigate the key considerations when choosing a large home battery system (generally exceeding 10 kWh) to meet their specific energy needs and budget. Home batteries store electricity from your solar system or the grid for use during outages, when the grid is most expensive, or at night when it is dark. A well-sized system can keep essential appliances running, lower your utility bill and protect you from grid disruptions. You can go off-grid with.
