

# Home photovoltaic grid-connected to energy storage

## Overview

---

But what if your roof could moonlight as a power plant?

Enter home photovoltaic grid-connected energy storage systems—the tech-savvy answer to energy independence. Sometimes two is better than one. Think of an energy storage system as your personal power reservoir – much like having a water tank. Generac Solar & Battery Solutions provide a more powerful, resilient and smart way to manage your energy needs. With rising electricity costs and an aging grid, it's time for a reliable solution that gives you the power to use energy on your own terms.
